

Razortip™

Thanks to my Grim Reaper Broadheads I harvested this ram with a low poundage bow and light arrows! Double lung shot, he only went 100 yards!

Thanks so much.
-Stacey Greathouse

It flew like a field point penetrated like a sword the entire body cavity of my largest bull. Broke a rib on the way out. It was devastating. Just what you want when you're hunting big bulls.

-Wayne Carlton

#1 PENETRATING MECHANICAL BROADHEAD
(In an independent study by Archery Business Magazine)

TAKE THE HADES CHALLENGE

Shoot the Hades against any other fixed head and see for yourself that it's the most accurate, quietest flying and deepest penetrating.

NEW

- Extremely Sharp, High Strength Blades.
- Aircraft Grade Aluminum Ferrule
- Corrosion Resistant, Rust-Proof Tip
- Sharpened on blade backside for maximum internal cut.

85 gr, 1 1/8" CUT #2202
100 gr, 1 3/8" CUT #2203
125 gr, 1 3/8" CUT #2213
(Replacement Kit #2206)

HADES™

QUIET ACCURATE

Out west, sometimes longer shots are a must. It's good to know that no matter what the conditions are, I can count on the true flight and durability of the Hades!

- CJ Simmons

In my opinion the finest head on the market. Nothing flies as straight, penetrates as well, or produces the massive blood trails as a Grim Reaper. I trust no other broadhead to the hard work and time I put into the animals I pursue.

-Darrell Bozarth

Razorcutss™

NEW SOLID STAINLESS STEEL TIP

I was really impressed with the new Razorcut SS's performance on this black bear. The one piece stainless steel tip passed through the opposite shoulder blade without any damage to the tip. And the new 2" cut 3-blade configuration made a fist-sized hole.

-Jay Liechty
President Grim Reaper Broadheads.
